ELITE TUTORING COLLEGE GENIUS GROUP PROGRAM

The Genius Group is a program for exceptional students at Elite Tutoring College that was created in 2013.

There are two Genius Groups – the Genius Masters for Year 10 to Year 12 students, and Genius Juniors for Year 4 to Year 6 Students.

The Genius Group program specifically targets students who:

- Are particularly hard-working, ambitious and goal-driven
- Have demonstrated that they are high academic achievers
- Wish to strive for academic excellence
- Intend to pursue a future career in a demanding, top-level profession such as medicine, medical science, law, etc. (Genius Masters)
- Wish to gain a head-start by advancing to an elite academic level prior to commencing secondary school (Genius Juniors)

WHY SHOULD YOU JOIN THE GENIUS GROUP PROGRAM?

Apart from the prestige of being included in an elite-level academic program, there are numerous valuable benefits to joining our Genius Group Program. Some of these include:

- Academically outstanding students will be able to study together with students of equally high calibre, and not be held back by slower-moving students.
- All Genius Group lessons will be taught by our head tutor, Associate Professor Steven Lee. Once our Genius Group Program is up to speed it will be the only available avenue for being tutored by Prof. Lee at Elite Tutoring College.
- Students will maximise their chances of attaining the highest possible school grades.

- Students will achieve a high level of preparedness for entering into the most demanding of university study courses such as medicine, law, etc. (Genius Masters).
- Students will achieve a head-start and a high level of preparedness for entering into their secondary school education (Genius Juniors).
- Students are required to undertake a final exam at the end of each term and awarded a special certificate of achievement at the end of the year showing the final grade achieved in each subject.

Exemptions for subjects to be studied as part of the Genius Group Program may be considered in certain special circumstances.

Any applicant who fails to be accepted into the Genius Group Program will be advised of the reasons for the non-acceptance.
